

Copper Mill Elementary School 2018-2019

Students entering the 5th or 6th grade should read at least **three** books over the summer break. Below is a list of suggested titles for each grade level. Their summer reading does not have to be limited to this list. Challenge your child to explore other books from the suggested authors and series suggestions that align with their interests. Although it is not required, students may take an AR test on the book when school begins.

5th grade Summer Reading list

Chomp by Carl Hiasson
The Dagger Quick by Brian Eames
